

SNOW DAY—Resident John Ford took advantage of the newly fallen snow yesterday. He's pictured here heading out to do some cross country skiing on our Laconia campus. *Photo courtesy of Alana Persson*

Dear Taylor Community,

Today is certainly a big day! CVS has arrived this morning with four pharmacists, four pharmacy technicians, and four nurses. We are ready for a full day of vaccinations here on our Laconia campus. Our Assisted Living Residents will get their second dose of vaccine and our Independent Residents their first! It will be a long and busy day for our team and for our residents who have anxiously awaited for this day to arrive.

Today I simply want to remind all to exercise patience. The Independent Resident Vaccine Clinic today at Woodside is a huge undertaking, as we will be vaccinating our Back Bay and Taylor Connection residents along with our entire Laconia campus population. It will be an extremely deliberate process, adhering to the strictest of safety precautions.

We hope to follow the appointment schedule closely, however it is likely that there will be some delays. Please be patient with us and know that we have all hands on deck for you today. Taylor Community staff will be positioned throughout campus helping to keep neighborhoods aware of delays and to direct you to where you need to be just as soon as we are ready for you. Rest assured that all will receive the vaccine today. And we will be with you every step of the way.

Be safe, wear a mask, and please keep washing your hands,

Michael
