

WHAT A TEAM! Not only are they extraordinary caregivers, they are also artists! Here is our Care Management team showing off the pottery they painted during their department's holiday celebration at Laconia's Art Escape in December.

***"For everything you've done and everything you are, thank you. You are the light that shines."
-StoryPeople***

Dear Taylor Community,

Taylor Community is filled with people whose life's work is caring for others, and nowhere is this more apparent than in our Care Management Department. Along with Hank Offinger and Diane Poh, Care Management Nurse Heather Bell and TaylorCare's Sandy Berry, Laura Brown and Cathy Dutton are here supporting residents and their families seven days a week.

Our TaylorCare team provides skilled and compassionate in-home health care services for our independent residents who may need a bit of support to live safely and comfortably in their homes. And throughout this pandemic they have also taken on the additional role of grocery shopping for all residents—a herculean task in and of itself.

Simply stated, they are angels among us and Taylor Community is an immeasurably better place because of Hank, Diane, Heather, Sandy, Laura and Cathy. Today we honor you and thank you for all that you do.

Be safe, wear a mask, and wash your hands,

Michael
