

## Celebrating Lake Winnepesaukee Day

It is no mystery why so many people flock to New Hampshire during the warmer months. From forested hikes and stunning mountain views to local summer concerts and charming small towns, New Hampshire offers its best to those who visit. However, when it comes to enjoying the great outdoors, nothing can quite compete with the Lakes' Region's crowning jewel, Lake Winnepesaukee.

Lake Winnepesaukee, meaning "Smile of the great spirit," is a glacial lake with 178 miles of shoreline, approximately 260 islands, and a plethora of otter, mink, and beavers to boot. Named by the indigenous Americans of the Abenaki tribe, Lake Winnepesaukee has played an integral role in local recreation and culture for centuries. From fishing along the shore, swimming at the beach, or enjoying a sunny day from the bow of a boat, Lake Winnepesaukee has enriched the lives of thousands.

To honor such an important piece of our local landscape, the Town of Wolfeboro Economic Development Committee created Lake Winnepesaukee Day. Taking inspiration from the 150<sup>th</sup> Anniversary of the Mount Washington Cruise held 2022, the second Friday of August was officially declared Lake Winnepesaukee Day.

This year, Lake Winnepesaukee Day was celebrated on August 11<sup>th</sup> at the Wolfeboro Town Docks. The event included food, music, dancing, local vendors, and an outdoor laser show. The M/S Mount Washington herself even joined the festivities, cruising from her post at the Weirs to the Wolfeboro Town Docks, accompanied by her sister ship, The Spirit. The event was a huge success and brought hundreds to the docks, making for an evening filled with fun and spectacle for all those in attendance.

The Taylor Community Genealogy Interest  
Group will gather on Wednesday, September

Using Collateral and Cluster Research to help  
solve family history research challenges.

Collateral relatives refer to the blood relatives  
of our direct ancestors including siblings, aunts,  
uncles, grandparents, and all kinds of cousins,  
etc. Cluster research examines the “clusters” of  
individuals who lived in your ancestors’  
community. Sometimes the cluster is referred to  
as an ancestor’s FAN club, i.e., Friends,  
Associates, and Neighbors.

All Taylor residents and their guests, regardless  
of level of experience, are welcome to attend the  
gathering.

As always at our gatherings, there will be time  
for sharing experiences and discussion of  
other family history-related topics.

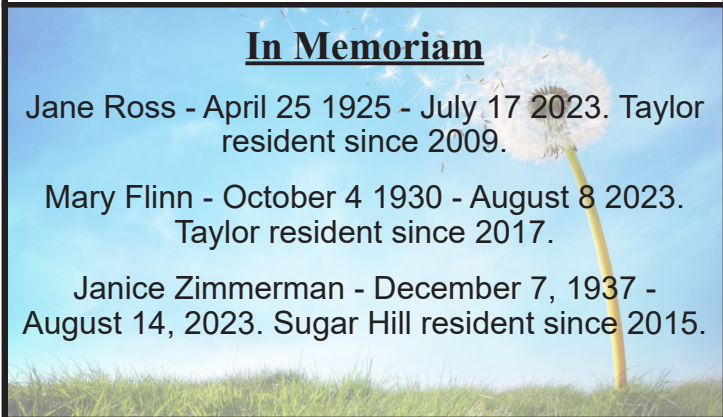

Pre-registration via the Touchtown app or e-mail  
to Ron Baker (ronbaker3@aol.com) is requested  
(but not required) by Sunday, September 10<sup>th</sup> to  
assure sufficient support and handout  
material will be available. For more information,

## TRA Corner

We had a very successful TRA Social in July with 74 in attendance. We were privileged to have the company of David Pearlman, Chairman of the Taylor Community Board, and his wife, Claudia, as invited guests. David spoke to those in attendance about the stability of Taylor Community and the interface between board members and residents. He was very positive and optimistic about the direction of Taylor under the guidance of Michael Flaherty. Also in attendance was Tom Volpe, trustee emeritus and brother of Elizabeth Dunkling.

The winner of the 50/50 raffle was resident John Davies. He immediately returned his winnings to the Sunshine Fund. Thank you, John, for your kind gesture.

There are many upcoming events for September and October including the delicious TRA BBQs on September 4<sup>th</sup> at 4:00 p.m., and again October 9<sup>th</sup> at 4:00 p.m. at the Pavilion (weather permitting).

Thank you to all of you who voted for members of the Board of Trustees on August 18<sup>th</sup> as this is our opportunity as residents to be represented on the Board.

Have a wonderful end of summer as we approach our beautiful Fall foliage in New Hampshire.

(I apologize for the typo in the last communication on the spelling of Don Sorrie's last name)

## The Greater Lakes Region Childrens Auction, The Community Challenge

Welcome to the Fall 2023 Community Challenge and Children's Auction Events

As the fall season arrives, interest in building the Children's Auction begins in earnest. Most of the teams in the Community Challenge, including our own Team Taylor, have various types of activities and fundraisers for the Challenge. As this comes into focus, we would like to mention some of the activities that are already on the schedule for this years challenge.

**The Fall Shuffle:** Team Taylor was one of the top teams in the 2023 spring shuffle, raising over \$3,000. The Fall Shuffle season for the Challenge teams begins on September 13<sup>th</sup> and continues for 7 weeks until Oct 25<sup>th</sup>. You can see the particulars at <https://www.patrickspub.com/the-shuffle>.

**The Sweepstakes Social:** For the last two years, this has been one of the best fundraisers for the Challenge. On September 15<sup>th</sup> aboard the MS Mount Washington, there will be a night of music, food and drinks, and a giveaway of \$15,000. Tickets are \$100 and admit two individuals, and only 300 tickets will be sold. Of the \$30,000 raised, half will be given back through a raffle. (A Team Taylor member won \$1,000 last year.) It's really fun night, check it out at <https://www.patrickspub.com/sweepstakes-social>

**The Taylor Fall Craft Fair:** On November 4<sup>th</sup>, Taylor is hosting its own fall fair with vendors, crafts, White Elephant tables, and a silent auction. Last year, half of the proceeds of this event were donated to the Children's Auction.

**Pub Mania:** On December 7<sup>th</sup>, Patrick's Pub revives it's most popular fundraising event during which each participating Challenge team takes a seat at the bar, for 12 hours, and during that time, team members participate in a series of events, activities and tasks. This year, Team Taylor will occupy one of those seats for the first time. During each hour of the 12 hour Pub Mania, a different team member will take the team seat. More on this fun event later in the Fall!

**The Children's Auction:** The central and concluding event of each year's efforts. A four day extravaganza from December 5-8, 2023. More on that will come later in the fall.

## The Earth has Taken Care of us — Let's Return the Favor!

### 10 Ways to Start a Sea Change Today

- 1. Sign up for the Ocean Conservancy's International Coastal Cleanup.** Volunteers remove trash from the beaches and shorelines, and data collected by these citizen-scientists help inform solutions that keep trash out of our oceans in the first place.
- 2. Download the Clean Swell Smartphone App.** Join the movement for Trash Free Seas by tracking any litter you collect along beaches, waterways and parks. Your findings will be added to the Ocean Conservancy's global ocean trash database which helps to identify trends around the world.
- 3. Ask for sustainable seafood.** Let chefs, wait staff and the folks behind your fish counter know that sustainable seafood is important to you.
- 4. Reduce.** Since packaging materials account for much of the trash we generate, they provide a good opportunity for reducing waste — Consider items with less, reusable or recyclable packaging.
- 5. Reuse.** More than 60 percent of the litter collected during the International Coastal Cleanup consists of disposable items. Choose reusable shopping bags, coffee mugs and food containers.
- 6. Recycle.** If you can't reuse it, recycle it. Check online with your local government to see what you can and can't give back, and recycle everything possible.
- 7. Reduce your carbon "fingerprint."** Our ocean is on the front lines of climate change — absorbing half the carbon dioxide we've pumped into the atmosphere. Use mass transit, carpool, and find other ways to reduce your carbon footprint.
- 8. Take only pictures.** Choose vacation spots working to protect endangered sea animals. When snorkeling or diving, take pictures and tell stories — but never stand on coral reefs or touch the marine life.
- 9. Prevent contaminated runoff.** No matter where you live, the ocean is downstream. Don't use chemical fertilizers and pesticides on your lawn. On driveways, avoid harmful cleaning products and take proper care of spilled oil.
- 10. Vote Green.** Urge your elected representatives to support ocean-friendly policies that protect our oceans. Stay informed through e-alerts from Ocean Conservancy and share your passion at [facebook.com/oceanconservancy](https://facebook.com/oceanconservancy).

### The 2023 Shuffleboard Playoffs

After a long layoff from action; the shuffleboard final returned this year and it did not disappoint. It was a tremendous season filled with action-packed games and huge crowds. The playoffs were no different. The crowd was full of supporters ready to cheer. Four teams entered into the final run for the championship trophy consisting of Paula Bertholdt and Doris Joyce ("Stone Masters") versus Fred Neinas and John Perley ("Puck Dynasty,") and Carol Houle and Dave Gorke ("Lonestar") versus Tom Gump and Shirley Kronbach ("Dino Sliders.")

Game one between Paula Bertholdt and Doris Joyce and Fred Neinas and John Perley was one for the ages. After trailing negative 9 to 40; Fred and John with a never quit mentality rallied back from the brink of defeat and won the game. The crowd was in shock to see such a comeback! The second game to determine the finals, between Carol Houle and Dave Gorke versus Tom Gump and Shirley Kronbach, became a war of attrition. Reaching a total playing time of over an hour, it was clear that neither team was giving up points easily. As one team would land a puck in the scoring zone, the opposing team would precisely, and with great force, push the scoring puck out of the scoring zone, often times leading to a ten off for the originally scoring puck. It was a great defensive game, but in the end Carol and Dave outlasted their opponent.

At long last the finals were set. Fred Neinas and John Perley versus Carol Houle and Dave Gorke would decide which names would be immortalized on the legendary Taylor Community Shuffleboard Trophy. It was a back and forth battle. As quickly as a team would gain points they would soon find themselves losing points just as fast. Inch by inch the teams battled to get closer to the final 50 points.

At long last, Carol Houle and Dave Gorke reached just under the 50 mark at 49 points. The game was set and it was over—or was it? A costly 10 points off dropped the team back down to 39 points and thus the time limit for day one was reached. For the first time in Taylor Community Shuffleboard history, the final game reached its time limit and was postponed to continue the next day. The following day found the teams feeling refreshed and ready to go after a grueling first day of the finals. At 11:00 a.m. on the second day, the score sat at 35 to 39 with Fred and John finding themselves down yet again. Keeping that same mindset of "never give up," Fred Neinas and John Perley pulled off the win after near-defeat, winning 50 to 46. Congratulations to Fred and John on winning the 2023 Shuffleboard Championship. Will their Puck Dynasty continue next year? Only time will tell...

2023 Shuffleboard Champions John Perley and Fred Neinas

Say hello to this funky little friend. This is a Cecropia Moth caterpillar. When it grows up, this caterpillar will become one of the largest moths in North America.

Thank you to Taylor's own Maureen Ballester for sharing this special find with us.

## Dragon Boat Races

Taylor Community is once again participating in the Lakes Region Cancer Support Team Dragon Boat Festival on Saturday, September 23<sup>rd</sup> at the NASWA Resort.

The Dragon Boat Festival event involves "Dragon Boats" crewed by volunteer paddlers competing in fun races on Paugus Bay. Taylor Community is sponsoring a Dragon Boat, so there is no financial obligation to participate — this is simply an opportunity for Taylor Community residents and staff to join together and have some fun in support of a wonderful cause.

All proceeds from the Dragon Boat Festival support the Lakes Region Cancer Support Team, which is located in Laconia and dedicated to providing support groups, workshops and more for free for men, women, teens, and children impacted by cancer. Taylor Community Resident Rod Dyer, John Perley and Fred Neinas are all members of the Lakes Region Cancer Support Team Board of Trustees. For more information about the Lakes Region Cancer Support Team and the Dragon Boat Festival, please visit: [lrcsupportteam.org](http://lrcsupportteam.org).

Dragon Boating is easy to learn, extremely safe, and an activity where men and women compete side-by-side towards the same goal. Dragon boats are long (40 feet), narrow crafts. The crew consists of 16 paddlers sitting two abreast, a drummer, who sits at the head of the boat and beats out a paddling rhythm for the crew; and a steersperson at the rear of the boat.

Regardless of how young, old, big, or little—all paddlers are contributing to their team! Add the outdoors, the water, the visual spectacle of dragon boating, and you get a perfect activity for friends and family. Absolutely no experience is necessary to participate, and the Lakes Region Cancer Support Team provides the boats, paddles, life jackets, time to practice, and the racecourse! The minimum age to paddle is 12 years old.

If you would like to join Team Taylor as a paddler, please contact Gretchen Gandini at 603-366-1482 or [ggandini@taylorcommunity.org](mailto:ggandini@taylorcommunity.org).

If you would prefer to be an "honorary paddler" and make a gift in support of this worthy cause, donations made payable to "Lakes Region Cancer Support Team" may be dropped off with Shannon at the Woodside Front Desk.

Thank you,  
Gretchen

Taylor Sunshine Fund Committee

Dear Resident,

If you are a longtime resident, you already know what the Sunshine Fund is and why you support it each year. If you are new to Taylor, welcome! We are happy you have joined our Family! A total of 278 people focus their working lives on making Taylor a special place for all of us. Many of them you know — the staff in the Wellness Centers who keep us fit, and the folks who keep the pools sparkling. The Bistro dining room and kitchen staff who keep us so well fed! The "refurb team" that prepares our homes for occupancy, the maintenance crew folks who maintain them, the clinical staff members who help those who need personal assistance in their lives. And let's not forget the Powerback Rehab team for those recovering from illness or surgery! You'll want to thank them for their invaluable presence on campus!

And then there are those who are vital to our well-being and safety, but with whom we may not have daily contact — the grounds keepers who successfully meet the challenge of rain and snow and fast growing grass, not to mention the planting of all those flowers each spring! And what would we do without the housekeepers who keep our buildings tidy and shining! They, too, merit our recognition and gratitude!

Each December, we celebrate the folks who work so hard to make Taylor the premiere LRCC in the Lakes Region. There are lunches prepared by Glendale Dining Service accompanied by music and much laughter. There are homemade Christmas cookies made by residents. And each employee receives a bonus from The Sunshine Fund based on the number of hours they worked on any of the campuses.

Your "thank you, Taylor staff!" check can be made out to Taylor Home Residents Account with Sunshine Fund on the memo line and mailed to Maureen Ballester, 435 Union Ave., Laconia, NH 03246, or you can place your check in the Accounts Receivable mailbox in the mailrooms at either campus. Either way, your generous contribution will be appreciated!

Questions? Sunshine Fund Chair Judy Siegel (603-556-9939) has answers!

With warm regards,

### Men's Breakfast

Wednesday, September 6<sup>th</sup> at 7:00 a.m.

Fall is here again, which means that it is time for our monthly Men's Breakfast to resume. As you know, we meet the 1<sup>st</sup> Wednesday of every month except July and August. As usual, coffee will be ready at about 7:15 a.m., with food at about 7:30 a.m., and the speaker from 8:00 - 9:00 a.m.

Our speaker this month will be Jenifer Hoffman, Taylor's Vice President of Marketing and Sales. She will be updating us on the Marketing team and how both they and Taylor have grown during the 2 ½ years she has been here. Using such methods as "Lunch and Learns," Open Houses, advertising, and the Gazette to encourage interest in Taylor, and with the addition of the Sugar Hill complex and the new Residence at Back Bay building (which she is ahead of schedule in filling as you heard at the August Town Hall meeting), I believe she said Taylor has just surpassed 500 residents. She might give us some of her background of getting into the marketing profession and into Taylor in particular, and perhaps describe the inner workings of the department. Time permitting, she will answer questions from the floor. She, like Paula Glaude next month, would like to join the attendance competition, so please be there.

To make a reservation PLEASE register through Touchtown. For those who can't use Touchtown, call me (603-524-7131) or e-mail me (jelarson234@yahoo.com). Mark your calendar and remember to look at it. I look forward to hearing from you, and seeing you there.

Thanks,  
John Larson

Wednesday, September 6<sup>th</sup>,  
8:15 a.m. Departure Time

According to legend, Ogunquit (pronounced / o-gun-quit/) was named by the Abenaki Tribe, because it means “beautiful place by the sea.” Those who have visited agree with this assessment. We all have different reasons for finding Ogunquit beautiful—some love the salty-sweet scent of beach roses or sea breezes wafting along the Marginal Way walking path, or the lapping incoming tide, or perhaps the nostalgic village feel of strolling among quaint buildings, coves and pedestrian bridges throughout the town. Join us on this walking tour of Perkins Cove and Marginal Way where you can shop and eat at locations of your choice. The bus will begin picking up residents on the Laconia Campus at 8:15 a.m.

Many interesting and funny stories have been passed down to us about outings on the boats and life at the Wawbeek during those days. We hope you will join us as David Warren takes us back in time to a wonderful period in our history. The group will travel to Hart's Turkey Farm for lunch following this event. The bus will begin picking up residents on the Laconia Campus at 9:00 a.m.

They will also explore how the Shaker vision of “Heaven on Earth” reflects their communal life, religious practices, equality for all, pacifism, simplicity, and innovative contributions to American history and culture. Admission for this docent-led tour (at 11:00 a.m.) is \$20 per person. The group will bring along a picnic lunch for this event using the Summer Picnic Menu. ### New Hampshire Boat Museum - Wolfeboro

Tuesday, September 26<sup>th</sup>

8:45 a.m. Departure Time

New Hampshire Boat Museum's collection supports their mission to share the stories of boating and the lake life culture of New Hampshire. The waterways of the Granite State have been a part of the economic backbone of this state for hundreds of years. Now used more often for recreation, the major lakes and rivers once were used for transportation of goods and people as well as a means of energy to power the thousands of small mills in towns and villages across the State nearly 200 years ago. During the age of industry in the 19<sup>th</sup> century, the mills of Manchester, Claremont, Nashua, Berlin, and others, harnessed the tremendous power of New Hampshire's largest rivers. With the mills long gone and the lakes and rivers cleaned up after years of industry, recreational use has taken over and drives the tourism industry. This permanent collection of over 2,500 objects (and growing) includes vintage motorboats of varying lengths and engine-types, canoes, rowboats, rowing sculls, race boats, ice boats, sailboats, a steamboat, a sneak boat, plus engines (inboard and outboard), waterskis, multiple wooden boat models, half hulls, PFDs, artifacts from historic boats of various types, an art collection, and other boating ephemera. Chris Craft, Lyman, Fay & Bowen, Penn Yan, Goodhue & Hawkins, F.W. Johnson, Dee-Wite, and Milo Craft are just some of the types of motorboats found in our collection. Vintage and classic Mercury, Johnson, Elto, Evinrude, and OMC are some of the types of outboard engines NHBM has among its collection. The group will enjoy lunch at Garwoods following the tour. Museum admissions tickets are \$8 per person. The bus will begin picking up residents on the Laconia Campus at 8:45 a.m.

### **David Thorne Scott - Vintage Vocal Quartet** Sunday, September 10<sup>th</sup> at 3:00 p.m.

The VVQ has been delighting concert audiences, lindy hoppers and guests at swanky private events all over New England. They have performed with the Boston Pops, the Melrose Symphony and the Cape Symphony as well as the Capitol City Jazz Orchestra. ### **Newmont Military Band** Monday, September 11<sup>th</sup> at 6:30 p.m.

The Newmont Military Band, brought together by Larry Jones of Windsor, Vermont, began as a cornet band, and was formed in 1995 as a re-creation of a small-town brass band of the late 1800s. A couple of years later, the clarinets were added. Most of the brass instruments played by the musicians in the NMB are originals, i.e., were either manufactured prior to, or based on, designs drawn before 1895. These brass instruments — cornets, alto horns, tenor horns, baritone, and tubas — have a more mellow sound than many of today's brass instruments, and they require a different level of skill to produce the sound so indicative of the old-time bands. This event will be held at the Pavilion beginning at 6:30 p.m.

### **Meadowlark Trio** Sunday, September 17<sup>th</sup> at 3:00 p.m.

Hyun-Ji Kwon, cellist, currently maintains an active schedule as soloist, chamber musician, and pedagogue. She has performed as guest alumna along with the celebrated Muir Quartet and violist Michelle LaCourse, with the Convergence Ensemble, ArtiQue in Boston Ensemble and many more Boston area ensembles. Currently, she serves as a cello faculty member at Phillips Exeter Academy, and chamber instructor at Project STEP. Boston-based pianist April Sun enjoys a multi-faceted musical life as a performer, educator, and arts organizer, who values curiosity, sincerity, and fun in her work/play. April is committed to helping diverse communities forge meaningful relationships with music. April teaches piano and chamber music at the Brookline Music School and serves as a collaborative pianist at New England Conservatory and Boston University. Our Music Series is made possible with the support from The Bank of New Hampshire. This program is sponsored by Taylor resident Kit Peterson. ### Discussion Group - Dealing With Loss

Friday, September 1<sup>st</sup> at 11:00 a.m.

During our lifetime, all of us experience loss of some kind. An obvious loss is the death of a spouse, a family member, or a beloved friend. Loss can also involve experiencing a partner's cognitive impairment and change in personality because of dementia; they are not the person we once knew so well. In addition, as we age, we can also experience the personal loss of physical capabilities, the loss of our role and identity in the workforce once we retire, or the loss of our social support group when life has us move to a new location. It can help to talk with others experiencing loss, to gain insight to others' feelings and approaches to dealing with these losses, as well as to feel the support of a caring community. Here at Taylor Community, no one is truly alone, and this discussion group may help to reinforce the support and understanding that we offer each other. This group will be meeting in the Woodside Birch Room. Please contact Hank Offinger with any questions at 603-366-1207 or [hoffinger@taylorcommunity.org](mailto:hoffinger@taylorcommunity.org). This event will be held in the Woodside Birch Room.

Self-discovery: know thyself, find ingenious ways to leverage strengths and the bravery to acknowledge and overcome your challenges. Serendipity: open yourself up to opportunity, destiny, and the random strangers you meet along the way. Stubbornness: sometimes you have to power through or adjust how you measure success to thrive in trying times. This event will be held in the Woodside Elm Room beginning at 2:00 p.m.

### Aimee Fogg - Henri Chapelle Cemetery

Wednesday, September 13<sup>th</sup> at 6:30 p.m.

It was just about ten years ago that Aimee Fogg traveled to Belgium to learn about her great-uncle's death in World War II. Today she has a new appreciation for life, and a growing collection of adopted relatives. The men and women she now considers family share one thing in common: a loved one buried at Henri-Chapelle American Cemetery in Hamburg, Belgium. By the end of the war, it was the largest temporary American cemetery in Europe. Many of the 17,000 soldiers have been returned to the United States for burial, but nearly 8,000 remain. Fogg, who lives in Gilford, has collected stories and photos about the 40 New Hampshire men and the 25 from Vermont buried at Henri-Chapelle and published them in a pair of books. She's now documenting the accounts of 54 soldiers from Maine. Join us as she shares her story. This event will be held at Woodside beginning at 6:30 p.m. Reservations are required.

### Woodside Book Club with Laconia Public Library - Remarkably Bright Creatures by Shelby Van Pelt

Friday, September 15<sup>th</sup> at 10:00 a.m.

"Remarkably Bright Creatures [is] an ultimately feel-good but deceptively sensitive debut. Memorable and tender." — Washington Post

For fans of "A Man Called Ove," "Remarkably Bright Creatures" is a charming, witty and compulsively readable exploration of friendship, reckoning, and hope that traces a widow's unlikely connection with a giant Pacific octopus. After Tova Sullivan's husband died, she began working the night shift at the Sowell Bay Aquarium, mopping floors and tidying up. Keeping busy has always helped her cope, which she's been doing since her eighteen-year-old son, Erik, mysteriously vanished on a boat in Puget Sound over thirty years ago. Tova becomes acquainted with curmudgeonly Marcellus, a giant Pacific octopus living at the aquarium. Marcellus knows more than anyone can imagine but wouldn't dream of lifting one of his eight arms for his human captors — until he forms a remarkable friendship with Tova. Ever the detective, Marcellus deduces what happened the night Tova's son disappeared. And now Marcellus must use every trick his old invertebrate body can muster to unearth the truth for her before it's too late. Shelby Van Pelt's debut novel is a gentle reminder that sometimes taking a hard look at the past can help uncover a future that once felt impossible. This event will be held in the Woodside Elm Room beginning at 10:00 a.m.

### Dragon Boat Races to benefit Lakes Region Cancer Support Team

Saturday, September 23<sup>rd</sup>, 7:30 a.m. pick up for 8:00 a.m. start time

Starting at 8:00 a.m. we'll have Dragon Boat races, a flower ceremony for loved ones touched by cancer, and fun for anyone racing or watching! Dragon Boating is easy to learn, extremely safe, and an activity in which men and women compete side-by-side toward the same goal. Dragon boats are long (40 feet), narrow crafts. The crew consists of 16 paddlers sitting two abreast, a drummer, who sits at the head of the boat and beats out a paddling rhythm for the crew, and a steersperson at the rear of the boat. We'll provide a steersperson, if you don't have someone with that experience. Regardless of how young, old, big, or little, once a paddler is in stroke, they are contributing to their team! Add the outdoors, the water, the visual spectacle of dragon boating, and you get a perfect activity for friends and family. Absolutely no experience is necessary to participate, and we provide the boats, paddles, life jackets, time to practice, and the racecourse! While 17 people are required for each team, we recommend about 18-21 participants per team in case someone can't paddle at the last minute. Both men and women participate and the minimum age to paddle is 12 years old. Participation is easy — Join our team of paddlers! For details, please reach out to Gretchen Gandini. If you would like to join the group traveling to view the race, please sign up on Touchtown. The bus will be leaving Woodside to begin pickups at 7:30 a.m.

## Sugar Hill Library Section

Can you identify the cartoonist? Our library has a wonderful collection of humor from authors Rebecca Rule, David Sedaris, and Shel Silverstein. We also have several compendiums including Yankee humor, classical humor, and even New York Times cat cartoons. Let's look at two anthologies.

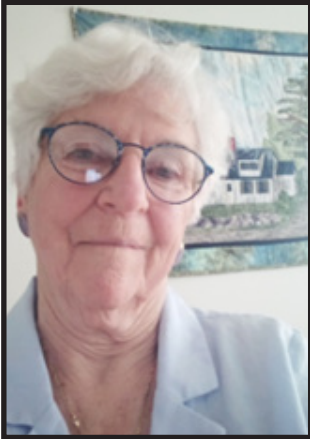

A Subtreasury of American Humor, compiled by Katherine and E. B. White (NAL/WHI) includes works from Mark Twain, Edgar Allan Poe, Benjamin Franklin, Ogden Nash and many more. You will find stories, fables, parables, satire, folklore and nonsense. E. B. White wrote, "Since this book is an arbitrary collection, we do not feel obligated to apologize for anything. The inclusion of any item can be ascribed to the editor's jaundiced taste; the omission of any item to their sheer vindictiveness."

"The Thurber Carnival" (NAL/THU) is a priceless collection of James Thurber's stories, fables and cartoons. The word droll doesn't begin to describe him. If you are a fan of "The New Yorker" magazine, you already know him and doubtless identified the cartoonist. This book will absolutely delight you.

## Artist spotlight: Winnie O'Shaughnessy

Like many of you, I started sewing with my mother on an old treadle sewing machine. Being encouraged to experiment on my own, I graduated to making my own clothes and ultimately our four daughters' wedding dresses. Then one day, housebound with seven children, I decided to make a quilt to ease the boredom. That accomplishment sparked my interest and I have been making quilts ever since. I believe that all of my children and most of my grandchildren now have "a quilt from Mom."

One day after coming home from a fly-fishing trip, I wanted to preserve the memories in something more than a photograph. I started cutting out pieces of nature-inspired fabric, then pasting and sewing them together until I had simulated the photo. Thus was born my love of recreating photographs in fabric. I have been encouraged by friends and family and have been

fortunate to receive many commissions from people wanting me to "sew" a picture of their homes. The technique relies less on creativity and more on attention to perspective and color choices as well as patience.

I also like to experiment with new techniques such as stylized portraits and stilllife nature. Making things with fabric not only provides room for experimentation and fun, but it soothes my spirit during times of transition and loss.

### Exhibition Tour (virtual)—Van Gogh's Cypresses | Met Exhibitions

Monday, September 18<sup>th</sup>

2:00 p.m. in the Sugar House Media Room

Join Susan Alyson Stein, Engelhard Curator of Nineteenth-Century European Painting, to virtually explore Van Gogh's Cypresses, the first exhibition to focus on the trees—among the most famous in the history of art—immortalized in signature images by Vincent van Gogh (1853–1890).

Such iconic pictures as Wheat Field with Cypresses and The Starry Night take their place as the centerpiece in a presentation that affords an unprecedented perspective on a motif virtually synonymous with the Dutch artist's fiercely original power of expression. Some 40 works illuminate the extent of his fascination with the region's distinctive flare like evergreens as they successively sparked, fueled, and stoked his imagination over the course of two years in the South of France: from his initial sightings of the "tall and dark" trees in Arles to realizing their full, evocative potential ("as I see them") at the asylum in Saint-Rémy. Juxtaposing landmark paintings with precious drawings and illustrated letters—many rarely, if ever, lent or exhibited together—this tightly conceived thematic exhibition offers an extraordinary opportunity to appreciate anew some of Van Gogh's most celebrated works in a context that reveals the backstory of their invention for the first time. Run time is 20 minutes. Please RSVP via Touchtown or to Caralyn Russell at 603-294-1770.
